CATALOG VERSION

Changes to the catalog are published on a periodic basis and reflect changes to policies and programs based on the decisions made by the University since the publication of previous catalog versions.

The University has the right, at its discretion, to make reasonable changes to policies and program content, materials, schedules, sequences of courses in programs, or locations in the interest of improving the student's education, or where deemed necessary due to industry changes, academic scheduling, or professional requirements.

The University is required to make changes to programs or policies when ongoing federal, state, or accrediting changes affect students currently in attendance.

CORPORATE INFORMATION

Potential Church, Inc owns Centurion International University, a Florida non Profit Company registered in the State of Florida.

TRANSFERABILITY OF CREDITS

Students who are interested in continuing their education at an institution other than Centurion International University should first make inquiry at the institution they plan to attend to determine credits and requirements needed for entrance. Transferability of credit is at the discretion of the accepting institution, and it is the student's responsibility to confirm whether or not another institution of the student's choice will accept credits.

Centurion International University cannot assure transfer of credit, students should contact the Program Director for specific information.

Centurion International University accepts transfer credits applicable to an applicant's program of study from regionally accredited institutions. Transfer credit is granted only for relevant courses in which a letter grade of "C" or higher was earned (2.0 on a 4.0 scale).

Credit for courses from non-regionally accredited institutions, which are substantially equivalent in content to Centurion International University courses and are applicable to an applicant's program of study may be granted on a course-by-course basis. The acceptance of courses from non-regionally accredited institutions is contingent upon appropriate faculty credentials and applicable course content of the course to be transferred. Transfer credits are granted only for courses in which a grade of "B" or higher was earned (2.0 on a 4.0 scale). Prior to granting transfer of credit for any course, the institution reserves the right to test applicants or request that they successfully pass an examination administered by a Centurion International University faculty member.

Upon receipt of an official transcript, transfer credits from non-U.S. institutions are evaluated and granted on a course equivalency basis. The Program Director must receive an evaluation of official transcripts by an approved educational evaluator service attesting that the courses are equivalent to courses earned at a regionally accredited institution of higher education in the United States.

Transfer credits are granted only for courses in which a grade of "B" or higher was earned (2.0 on a 4.0 scale). Prior to granting transfer of credit for any course, the institution reserves the right to test applicants or request that they successfully pass an examination administered by a Centurion International University faculty member.

STUDENT SERVICES

Under the supervision of the Director, student services are in place to assist students with their various needs. The goal of effective and worthwhile student services is to assist students and to directly involve students in the University affairs, with the goal of creating a sense of community among students, faculty, and administration.

ACADEMIC AND PERSONAL ADVISEMENT

This University emphasizes academic, personal, and professional development and the nurturing of each student. Coordinators serve as liaisons between students and the faculty/administration. It is the role of the Director to advise and mentor students with regards to academic and professional decisions. In addition, each faculty member is receptive to developing a professional, yet personal relationship with each student. As such, helping students feel comfortable, if the need arises, to seek advice from a faculty member with regards to academic and professional matters.

CAREER SERVICES

Students who are approaching graduation should contact the director. Students will be provided with accurate and timely information regarding the relationship of their programs of study to specific occupations and professions in the area. Centurion International University does not guarantee employment.

ADMISSIONS

Centurion International University's minimum admissions criteria are as follows:

- Submit a High School Diploma or GED
- Submit a completed Admissions Application
- Submit an Updated Resume
- Submit a valid Government Issued ID
- Submit a \$100 Application Fee
- Online students must have access to the Internet

Home-schooled students with a signed affidavit from their parent or legal guardian stating that the homeschooler completed a Florida home education program (or equivalent), per Florida Statute 1002.41.

Graduates with the foreign equivalency of a United States high school diploma that meet the admission requirements to a recognized institution of higher education in their home country with original documentation that shows all the requisite seals and apostille. The University reserves the right to require a certified official English translation if the language used in the documents is not English. Students who do not have the requisite seals and apostille on the original foreign high school documentation may opt to obtain an official evaluation of their credentials from a National Association of Credential Evaluation Services (NACES) member organization. The list of member organizations may be found at www.naces.org.

****All offers of admissions are tentative if you have high school or collegiate coursework in progress. Final admission is dependent on receipt and review of final transcripts. Admissions offers are subject to cancellation if final coursework does not meet admissions requirements.**

STUDENT FINANCIAL ASSISTANCE

Centurion International University does not offer student financial assistance. However, Centurion International University offers students scholarships, for those who qualify, and payment plan options. For more information regarding these programs, please contact the administrative staff.

GRADING CHART

Unless otherwise indicated, each grade earned is calculated into the student's cumulative grade point average (CGPA) and the credits assigned for the course taken are included in the calculation of total clock hours attempted.

The grading system for academic performance appears below. Unless otherwise indicated, each grade earned is calculated into the student's cumulative grade point average (CGPA) and the credits assigned for the course taken are included in the calculation of total credit hours attempted.

Letter Grade	Numerical Value	GPA
A	90-100	4
B+	85-89	3.5
B	80-84	3
C+	75-79	2.5
C	70-74	2
D+	65-69	1.5
D	60-64	1
F	59-0	0
I	-	Incomplete*
TR	-	Transfer Credit**
W	-	Withdrawal**
WP	-	Withdraw Passing**
WF	-	Withdraw Failing

* Grades are not calculated into cumulative grade point average (CGPA) but course hours are included in total credits attempted.

** Grades not calculated in CGPA and course hours are not included in total credits attempted.

- Repeated Courses
 - The new grade for a failed course that has been repeated will not replace the prior grade. Both the grade earned and the credits taken for the repeated course will be included in the SAP calculations.
- Incompletes (Grades of I)
 - At the discretion of the instructor, a student may be assigned a temporary grade of incomplete (I) to allow the student more time to complete missing coursework or to take a required exam. Upon completion of the work or exam, the earned grade replaces the grade of "I" and is calculated into the grade average for the level and for the CGPA. If the missing work or exam is not completed within two weeks from the last day of the course, a grade of "F" will be assigned and computed into the final grade average for the course and into the CGPA.
- TR Grade
 - A grade of TR is assigned for a student's successful transfer of credits earned from an accredited institution. Neither the grade nor the credits are included in the CGPA or credits attempted calculations. The total number of credits transferred is deducted from the total number of credits needed for program completion. The maximum time frame (MTF) for a transfer student will be 1.5 times the total hours needed for program completion.
- W Grade
 - A student who formally withdraws from the institution before the mid-point (50% or half-way point) of a course will be assigned a grade of W for the course. The W grade is not included in the calculation of the CGPA and the credits for the course are not included in the determination of total credits attempted.
- WP Grade
 - A student who formally withdraws from the institution after the mid-point of a course and who had earned an overall score of 2.5 or higher by the time of the withdrawal will be assigned a grade of WP for the course. The WP grade is not included in the calculation of the CGPA and the credits for the course are not included in the determination of total credits attempted.

- **WF Grade**
 - A student who formally withdraws from the institution or who stops attending after the mid-point of a course and who has earned less than an overall score of 2.5 or higher by the time of the withdrawal will be assigned a grade of WF for the course. The WF grade is included in the calculation of the CGPA and the credits for the course are included in the determination of total credits attempted.

OVERVIEW

Students must make satisfactory progress both in terms of cumulative grade point average and the total amount of time taken to complete the required course sequence as outlined by semester in Centurion International University Catalog. To maintain satisfactory progress, the student must:

- Complete their total program in no more than 1.5 times the number of semesters described in this catalog for the program.
- Establish and maintain at least a 2.0 GPA by the end of the student's second term of enrollment and all subsequent terms. (Grades for classes that were transferred from another Centurion International University are shown as "T" on the transcript and will not be used in computing the student's grade point average).

GRADE ERRORS OR CHANGES

Report grade errors or grade changes immediately to the Administrative Staff. Grade errors reported after two consecutive quarters might not be changed. Students are encouraged to consult with their instructors before initiating a grade review. After a course grade has been assigned, supplemental or additional class work will not be accepted for the purpose of changing that grade except in the case of an "I" (Incomplete) grade.

CREDIT HOURS

Credit hours are awarded on a semester basis according to the successful completion of coursework for which the student has registered. The successful completion of one unit of credit is equivalent to the following total clock hours per semester:

- 1 lecture credit -15 hours
- 1 laboratory credit -30 hours
- 1 internship/externship or practicum credit -45 hours

CLOCK HOUR

Each clock hour equals 60 minutes of classroom, lab, or internship time with a minimum of 50 minutes of instruction in the presence of an instructor.

COURSE NUMBERING SYSTEM

The course numbering system consists of an alpha prefix followed by a digit course number. The Alpha Prefix identifies the academic discipline and the last digit specifies the order in which the courses are taken.

SATISFACTORY ACADEMIC PROGRESS (SAP)

Students must make satisfactory progress both in terms of cumulative grade point average and the total amount of time taken to complete the required course sequence as outlined by semester in the institution Catalog. To maintain satisfactory progress, the student must: Complete their total program in no more than 1.5 times the number of semesters described in this catalog for the program.

Establish and maintain at least a 2.0 GPA by the end of the student's second term of enrollment and all subsequent terms. (Grades for classes that were transferred from another institution are shown as "T" on the transcript and will not be used in computing the student's grade point average).

Factors that may influence satisfactory progress and that may result in extended time are:

- Deviation from the catalog requirements in the number of hours taken per semester
- Deviation in the course sequence recommended
- Withdrawal from classes
- Repeated courses
- Grades of "Incomplete"
- Changing the major or the program
- Probation or suspension
- Grade appeal process
- Earning more than one degree at a time

In calculating Satisfactory Academic Progress, Grades "A" through "C-" are considered passing grades. Grades "W" and "I" indicate that no grades were earned for the course. A "W" grade indicates that the student withdrew from the course. An "I" grade indicates that the student was passing the course, but failed to complete all the required course work. The

instructor, in his/her discretion may grant an "I" grade instead of an "F", pending completion of the course work by the student within a specified time arranged by the instructor and told to the student. It is the student's responsibility to follow-up with the instructor to complete the course work. If the course work is not completed by the arranged time, the "I" grade becomes an "F". For students receiving transfer credit from other institutions, a grade of "T" will appear on their transcript. Courses for which a "T" is given will not be used in computing the student's grade point average.

A student's grade point average ("GPA") is computed by dividing the sum of all grade points earned at the Institution by the total number of credits in all courses for which grades "A" through "F" were received. Courses in which a "W" or "I" or "T" or "P" grade was received will not be used in computing a student's GPA.

DEFINITION OF SATISFACTORY ACADEMIC PROGRESS

Definition of Satisfactory Academic Progress:

- Each student enrolled at the institution must demonstrate that he or she is making satisfactory academic progress toward the completion of his or her chosen program of study. The criteria that each student must meet to qualify as making "Satisfactory Academic Progress" are defined below. A student who is failing to meet this criterion at any point outlined below will not meet the standard of "Satisfactory Academic Progress". Any of three remedies may be applied if a student is not making Satisfactory Academic Progress. These are as follows: academic probation, restricted class load status and/or termination from the program of study.

The definition of Satisfactory Academic Progress has both qualitative and quantitative criteria that must be met. The student must meet both of these sets of criteria to make Satisfactory Academic Progress. Unmet satisfactory academic progress also affects scholarship eligibility.

QUALITATIVE CRITERIA FOR SATISFACTORY ACADEMIC PROGRESS

Under the qualitative criteria, to make Satisfactory Academic Progress, the student must comply with the following two criteria:

1. Demonstrate a minimum overall cumulative grade point average of 2.0 at the end of the student's second term of enrollment, and at the end of each subsequent term thereafter.
2. Demonstrate successful completion of the required percentage of the total cumulative credit hours he or she has attempted in the program of study.

To maintain Satisfactory Academic Progress, a student must establish and maintain at least a 2.0 overall cumulative grade point average by the end of the student's second term of enrollment and all subsequent terms of enrollment. Also, to maintain Satisfactory Academic Progress, the student must complete the required percentage of coursework attempted.

Any student who fails to establish or maintain Satisfactory Academic Process must meet with the Executive Director.

A student who fails to establish or maintain Satisfactory Academic Progress will be placed on academic probation and maintain this status of academic probation during the following semester. At the end of the semester in which the student is on probation, the student's overall GPA and Credit Completion Percentage will be recalculated. A student will be removed from academic probation only if the student completes the appropriate percentage of coursework and earns a "C-" or better in all courses attempted during the semester in which he or she is on academic probation and earns a cumulative GPA of 2.0 or higher.

	Minimum Overall Cumulative GPA Undergrad/Graduate:	Required percentage of completion of coursework attempted:
Interval I: End of the second term:	2.0/3.0	60%
Interval II: End of the student's third and any subsequent term:	2.0/3.0	66.67%
Interval III: The total maximum for completion as timeframe described under "Quantitative Criteria" below.	2.0/3.0	66.67%

CALCULATION OF THE CREDIT COMPLETION PERCENTAGE

The credit completion ratio or percentage is calculated by dividing the total number of credit hours successfully completed by the student in his or her program by the total number of credit hours attempted by the student. For the purposes of calculation, credit hours attempted by the student include:

- A. All courses taken while the student is enrolled in his or her program of study or
- B. A different program of study, if:
 - a. The subject matter of a course or courses in that different program of study is substantially the same as a course in his or her current program of study, or
 - b. If a course or courses count toward the satisfaction of any of the coursework requirement in the current program.

CONDITIONS THAT MAY RESULT IN PROBATION, RESTRICTED COURSE LOAD STATUS OR TERMINATION

The following describes the conditions under which a student may be placed on probation, restricted course load or terminated completely from a program of study.

1. Termination automatically applies to any student not making Satisfactory Academic Progress at the end of the semester, unless the student appeals the Institution's determination of the lack of Satisfactory Academic Progress in writing to the Executive Director. The Executive Director may grant the student's appeal if all the requirements specified below under Academic Probation and Restricted Course Load sections are met. If the appeal is granted, the student will be placed on probation or restricted course load status during the student's next semester of attendance. Such action is not automatic, but at the discretion of the Institution.
2. Termination automatically applies to any student not making Satisfactory Academic Progress at the end of the following, unless the student appeals the institution's determination of the lack of Satisfactory Academic Progress in writing to the Executive Director. The Executive Director may grant the student's appeal if all the requirements specified below under Restricted Course Load sections are met. If the appeal is granted, the student will be placed on Restricted Course Load status during the student's next semester of attendance.
3. At the end of the following semester, if the student is not making Satisfactory Academic Progress, he or she will be terminated from his or her program of study at the institution.

CALCULATION OF OVERALL CUMULATIVE GRADE POINT AVERAGE

The calculation of a student's overall GPA in his or her program of study will include the following:

- The grade or grades earned by the student during each course in which he or she was enrolled in the program of study at the institution.
- The grade or grades earned by the student during which he or she was enrolled in a different program of study at the institution.

If the course or the content matter of any course taken in another program of study is substantially the same as a course in the student's current program of study, that course satisfies the coursework requirement of his or her current program of study.

QUANTITATIVE CRITERIA FOR SATISFACTORY ACADEMIC PROGRESS

All students must maintain a satisfactory overall GPA and successfully complete a minimum percentage of coursework (66.7% of hours attempted) each academic year. Additionally, a student must complete the degree within a maximum timeframe of attempted credit hours.

Program	Maximum Attempted Credit	
	Credits	Hours
Associate of Science Business Administration	60	90
Associate of Science Christian Ministry	60	90
Bachelor of Science Business Administration	120	180
Master of Science Business Administration	42	63
Master of Science Business Administration in Mass Communication	42	63
Master of Science Business Administration in Human Resources	42	63

The Maximum Time Frame for the Completion of any program of study is 150% of the credit hours designated for the program in the Institution catalog. A student is not be making Satisfactory Academic Progress if the institution determines that the student is unable to graduate from his or her program without exceeding the Maximum Time Frame for Completion. In such case, the student will be terminated from his or her program of study.

The calculation of the Maximum Time Frame for Completion includes all courses taken while the student is enrolled in his or her program of study or a different program of study, if the subject matter of a course or courses in that different program of study is substantially the same as a course in his or her current program of study, or if a course or courses count toward the satisfaction of any of the coursework requirement in the current program. Authorized leave of absence periods will not be counted toward maximum time frame calculation.

MAXIMUM TIME FRAME FOR SATISFACTORY ACADEMIC PROGRESS

SATISFACTORY ACADEMIC PROGRESS POLICY

All students are required to meet the standards of academic performance that are outlined in the sections below and they are evaluated regularly to determine that the standards are met. These standards have multiple components: a minimum cumulative grade point average requirement (CGPA); a minimum successful completion rate based on all clock hours attempted; and, a maximum time frame requirement to successfully complete all required clock hours for the program. As described below, each student must achieve the minimum CGPA within the maximum time frame established, achieving the required completion rate of 75% at each evaluation point. Failure to meet these standards may result in dismissal from the academic program and ineligibility to earn a degree.

MAXIMUM TIME FRAME (MTF) ASSOCIATE OF SCIENCE IN BUSINESS ADMINISTRATION

Students who adhere to their assigned class schedules and achieve the minimum passing scores or standards in their theory classes and core classes will complete the AS in Business Administration degree program in 60 credits. For any student who, for any reason, has not remained on track with his or her studies, the maximum time frame (MTF) to successfully complete the program is 90 credits.

The MTF, which is 1.5 times the normal completion time of 60 credits, is computed from the very first semester in which the student enrolled and originally began his or her studies at the

University. Any student who does not successfully complete the AS in Business Administration degree program within the 90 credits MTF cannot earn AS in Business Administration.

The MTF for transfer students will be adjusted individually according to the total number of credits they successfully transferred into the program. The total number of credits the transfer student needs to complete the University degree program will be multiplied by 1.5 to determine that student's MTF.

MAXIMUM TIME FRAME (MTF) ASSOCIATE OF SCIENCE IN MASS COMMUNICATION AND MARKETING

Students who adhere to their assigned class schedules and achieve the minimum passing scores or standards in their theory classes and core classes will complete the AS in Mass Communication and Marketing degree program in 60 credits. For any student who, for any reason, has not remained on track with his or her studies, the maximum time frame (MTF) to successfully complete the program is 90 credits.

The MTF, which is 1.5 times the normal completion time of 60 credits, is computed from the very first semester in which the student enrolled and originally began his or her studies at the University. Any student who does not successfully complete the AS in Mass Communication degree program within the 90 credits MTF cannot earn AS in Mass Marketing and Communication.

The MTF for transfer students will be adjusted individually according to the total number of credits they successfully transferred into the program. The total number of credits the transfer student needs to complete the University degree program will be multiplied by 1.5 to determine that student's MTF.

MAXIMUM TIME FRAME (MTF) BACHELOR OF SCIENCE IN BUSINESS ADMINISTRATION

Students who adhere to their assigned class schedules and achieve the minimum passing scores or standards in their theory classes and core classes will complete the BS in Business Administration degree program in 120 credits. For any student who, for any reason, has not remained on track with his or her studies, the maximum time frame (MTF) to successfully complete the program is 180 credits.

The MTF, which is 1.5 times the normal completion time of 120 credits, is computed from the very first semester in which the student enrolled and originally began his or her studies at the University. Any student who does not successfully complete the BS in Business Administration degree program within the 180 credits MTF cannot earn BS in Business Administration.

The MTF for transfer students will be adjusted individually according to the total number of credits they successfully transferred into the program. The total number of credits the transfer student needs to complete the University degree program will be multiplied by 1.5 to determine that student's MTF.

MAXIMUM TIME FRAME (MTF) MASTER OF SCIENCE IN BUSINESS ADMINISTRATION

Students who adhere to their assigned class schedules and achieve the minimum passing scores or standards in their theory classes and core classes will complete the MS in Business Administration degree program in 42 credits. For any student who, for any reason, has not remained on track with his or her studies, the maximum time frame (MTF) to successfully complete the program is 63 credits.

The MTF, which is 1.5 times the normal completion time of 42 credits, is computed from the very first semester in which the student enrolled and originally began his or her studies at the University. Any student who does not successfully complete the MS in Business Administration degree program within the 63 credits MTF cannot earn MS in Business Administration.

The MTF for transfer students will be adjusted individually according to the total number of credits they successfully transferred into the program. The total number of credits the transfer student needs to complete the University degree program will be multiplied by 1.5 to determine that student's MTF.

ACADEMIC PROBATION

All students enrolled must demonstrate that he or she is making satisfactory academic progress toward the completion of his or her chosen program of study. The criteria that each student must meet to qualify as making "Satisfactory Academic Progress" are defined below. A student who is failing to meet this criterion at any point outlined below will not meet the standard of "Satisfactory Academic Progress". Any of three remedies may be applied if a student is not making Satisfactory Academic Progress. These are as follows: academic probation, restricted class load status and/or termination from the program of study. The definition of Satisfactory Academic Progress has both qualitative and quantitative criteria that must be met. The student must meet both of these sets of criteria to make Satisfactory Academic Progress. Unmet satisfactory academic progress also affects scholarship eligibility.

RESTRICTED COURSE LOAD

An undergraduate student who, during the semester of probation, still does not earn a C- in every course or a 2.0 cumulative GPA is required to meet with his or her coordinator to

determine whether a reduced course load may be appropriate for the student. If the coordinator determines that a reduced course load may be favorable for the student, then the student may register the next semester for only half of the number of credit hours normally taken by a full-time student. If, during the semester in which the student is on Restricted Course Load, the student still does not earn at least a "C-" or better in all courses and earn a cumulative grade point average of 2.0, then the following semester, the student must register only for those courses in which he or she did not receive a "C-" or better. If, during that semester, the student still does not earn a "C-" or better for those courses, he or she will be terminated from the program of study and suspended from the Institution for unsatisfactory academic performance. A suspended student is eligible to apply for readmission after a minimum of one semester, and, if permitted to return, will be on academic probation and/ or restricted course load status.

A graduate student who, during the semester of probation, still does not earn a B- in every course or a 3.0 cumulative GPA is required to meet with his or her coordinator to determine whether a reduced course load may be appropriate for the student. If the coordinator determines that a reduced course load may be favorable for the student, then the student may register the next semester for only half of the number of credit hours normally taken by a full-time student. If, during the semester in which the student is on Restricted Course Load, the student still does not earn at least a "B-" or better in all courses and earn a cumulative grade point average of 3.0, then the following semester, the student must register only for those courses in which he or she did not receive a "B-" or better. If, during that semester, the student still does not earn a "B-" or better for those courses, he or she will be terminated from the program of study and suspended from the Institution for unsatisfactory academic performance. A suspended student is eligible to apply for readmission after a minimum of one semester, and, if permitted to return, will be on academic probation and/ or restricted course load status.

INCOMPLETE GRADE IN A COURSE

If a student receives a grade of A, B, C or D in any course, the student will have successfully completed that course. If the student receives a grade of "I", he or she must successfully complete the required work for that course within a specified time arranged by the instructor and communicated to the student, but no later than the end of the semester following the semester in which the "I" was received. It is the student's responsibility to follow up with the instructor to complete the course work. If the course work is not completed by the arranged time, the "I" becomes an "F".

PASS (P) GRADE IN A COURSE

If a student receives a grade of P in any course, the student will have successfully completed that course. A grade of "P" will have no effect on the student's cumulative grade point average. However, the grade of "P" is added to hours attempted within the specified maximum time frame.

WARNING

Warning is a warning status for students who failed to meet standards of satisfactory academic progress. Students are placed on Warning as the result of the following scenarios:

- Cumulative GPA is less than 2.0 by the end of the undergraduate student's second term of enrollment and all subsequent terms or
- Cumulative GPA is less than 3.0 by the end of the graduate student's second term of enrollment and all subsequent terms
- Completion of less than 60% of credits attempted

RESOLVING WARNING STATUS

To resolve warning status and get back into "Good Standing", students can do one of the following (depending on what caused the student to go on warning):

- Complete the next term successfully, which is defined as completing 60% of all credit for the term with a GPA above the required minimum.
- If the warning was caused by an "Incomplete" grade, have the "I" grade changed to a passing grade before the end of the warning term.

TRANSFER COURSES

Students will receive a grade of "T" for courses taken at another institution that is being transferred in for required courses at the institution. The grade of "T" has no effect on the student's cumulative GPA or successful completion of courses. However, a grade of "T" is added to hours attempted within the specified minimum time frame.

REPEAT COURSES

A student may repeat a course to improve the overall cumulative grade point average. If a student has an "F" and repeats the course and receives a better grade, for example, an "A",

then only the "A" is counted in the calculation of the cumulative grade point average. Credits attempted and earned for the second attempt are counted in lieu of those earned for the initial attempt.

Though both attempts remain part of the student's permanent record, the cumulative grade point average will reflect only the grade earned on the second attempt.

A student who earns a grade of "F" in any course included in his or her program of study must repeat that course and complete it successfully before taking any course with respect to which the failed course is a prerequisite and before graduation.

A student who has successfully completed a course, but wishes to improve the grade received in the course, may also repeat the course. If the course is repeated, the grade earned for the last time the course is taken replaces the previous grade when the overall GPA is calculated. All grades for all courses attempted will remain on the student's transcript, however.

CHANGE OF PROGRAM OR MAJOR

Students who contemplate a change from one program or major to another should discuss this possibility with the Executive Director to determine the effect such a change would make on the student's satisfactory academic progress. The institution defines satisfactory academic progress as completion of the total program in no more than 1.5 times the number of semesters described in this catalog for the program. All credits attempted count toward the total program length of 1.5 times the number of semesters required for completion of the major program. If a student changes his/her major or program only the credits that are common to both programs may be accepted toward the new degree program.

ADDITIONAL DEGREE PROGRAM

Students who wish to earn another degree must re-apply for admission to the Institution. Upon acceptance to the Institution, courses, which count toward the new degree program completion requirements, will be transferred. A student may only transfer courses with a final grade of "C" or higher. Credit attempted and grades earned in the student's new program of study will count towards determining satisfactory academic progress.

WITHDRAWAL FROM A COURSE

Students may withdraw from a course during the drop/add period (the first week of class) without punitive grades or financial obligations. If the student withdraws a course during the drop/add period (the first week of class), they will receive a "W" grade in the course. The last day of physical attendance determines whether or not grades are recorded for the semester. If the last day of attendance is within the first half of the semester, a grade of "W" is given. If the last day of attendance is within the second half of the semester, the student will receive a final letter grade. The grade of "W" has no effect on the student's cumulative GPA. However, the grade of "W" is added to hours attempted within the specified maximum time frame.

READMISSION AFTER SUSPENSION FOR UNSATISFACTORY ACADEMIC PROGRESS

If the student was not making satisfactory academic progress in his or her program of study as of the last semester enrolled, the student will not be readmitted into the same or a different program, unless the student makes an appeal in writing concerning the Institution's determination to the Executive Director (as provided below in the Appeal section) and the Executive Director grants the student's appeal. The Executive Director will consider mitigating circumstances in addressing the appeal. If the Executive Director grants the appeal, then the student will be placed on either academic probation or restricted course load status (at the Executive Director discretion, as appropriate) during the student's next semester of attendance in any program of study at the institution.

If the student is given permission for readmission, the student must agree in writing to the terms for readmission outlined by the Institution and must execute a new Enrollment Agreement with the institution. The student must also pay all current tuition, fees and any other costs associated with the student's program of study.

APPEALING A DETERMINATION OF UNSATISFACTORY PROGRESS

If the institution determines that a student is failing to make satisfactory academic progress in his or her program of study, the student may appeal the institution's determination in writing to the Executive Director. The student's appeal must provide details concerning the circumstances affecting the student's academic progress (such as serious illness or injury befalling the student, the death of a close relative of the student or any other special circumstances) that may influence the Institution's decision to terminate or not to readmit

the student into his or her program of study at The institution.

The Executive Director will consider the appeal to determine whether the special circumstances explained in the student's written appeal are mitigating circumstances that will allow the student to remain enrolled in or readmitted to his or her program of study at The institution despite the student's failure to conform to the requirements of Satisfactory Academic Progress. The determination of the student's appeal will be made by the discretion of the Executive Director in conformity to the principles and standards described in this catalog and will be final and binding on the student. If the Executive Director decides in favor of the student's appeal, the student will be placed either on academic probation or restricted course load status during the student's next semester of attendance in a program of study at the institution.

MAINTAINING STUDENT RECORDS

Faculty members should keep proof of student grades for one full year. Centurion International University maintains student paper and electronic records. Students have one year to correct any discrepancies in the official record. After that, source documents for computer files may no longer be available. Therefore, the burden of proof for changes made after the one-year period lies with the student.

Student records are kept permanently at the school.

CURRICULUM

DEFINITION

Curriculum at Centurion International University is defined as any Degree, Certificate, or course that currently appears or may appear in the University catalog.

PURPOSE

The purpose of the curriculum is to facilitate student learning through an integrated body of knowledge, principles, values and skills. Curriculum provides guidance for learning experiences that enable individuals to function effectively in school, workplace, home, and community. Curriculum reflects the educational goals and the stated mission of the University.

The purpose is fulfilled through the following curriculum objectives:

- To develop courses and programs that support the University's vision of an educated person and a commitment to education as a lifelong process.

- To provide educational experiences designed to facilitate the individual's progress toward personal, academic, and work-based goals.
- To encourage the development of individual ideas, insights, the acquisition of knowledge and skills that together result in an appreciation of cultural diversity and a quest for further discovery.
- To respond to the changing educational, societal, and technological needs of diverse student and community populations.

FUNCTIONS

The functions of curriculum procedures include the following:

- To facilitate the planning, development, delivery, and evaluation of the courses and programs offered by the University.
- To ensure the integrity of the University curriculum by communicating its goals, purposes and outcome measures with consistency, clarity, and efficiency.
- To promote the continuous improvement and enhancement of the University curriculum through dialogue and collaboration with external and internal constituents of the University.
- To provide faculty with a system that contributes to the effective and innovative delivery of skills, knowledge, values, and inspiration.

NONDISCRIMINATION STATEMENT

In compliance with Title IX of the Education Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, and other federal, state, and local laws, Centurion International University does not discriminate on the basis of age, race, color, sex, sexual orientation, religion, national or ethnic origin, disability, or status as a disabled or Vietnam era veteran in any phase of its employment process; in any phase of its admission or financial assistance programs; or other aspects of its educational programs or activities. The Administrative Staff collectively coordinates the University's efforts to comply with Title IX, Section 504 and other equal opportunity and affirmative action regulations and laws.

HARASSMENT

Any employee, student or applicant for employment or admission who believes he/she is the victim of harassment based on sex, pregnancy, sexual orientation, race, national origin, color, age, religion including unwelcome religious persuasion, disability, marital or other protected status may initiate a complaint against the individual allegedly charged with harassment.

Harassment will include but is not limited to slurs, innuendoes or other verbal or physical conduct reflecting on an individual's race, ethnic background, gender, religion, sexual orientation or disabling condition which has the purpose or effect of creating an intimidating, hostile or offensive educational or work environment; has the purpose or effect of unreasonably interfering with the individual's work or University performance or participation; or otherwise adversely affects an individual's employment or educational opportunities.

STUDENTS WITH DISABILITIES

Centurion International University encourages all qualified students to attend the University. As a result of this policy, we hope to enjoy a very diverse student population. This diversity should include students with disabilities. Centurion International University will make every effort to help students with disabilities get the most out of attending Centurion International University by providing services and reasonable accommodations to ensure access to all academic programs, services and activities—in compliance with the Americans with Disabilities Act of 1990 (ADA).

The ADA defines a person with a disability as any person who has a physical or mental impairment that substantially limits one or more of such a person's life activities; has a record of such impairment; or is regarded as having such impairment. Examples of disabilities include, but are not limited to: physical impairment, visual impairment, hearing impairment, learning disability, speech/language impairment, alcohol/drug abuse, AIDS, psychiatric disability, and ADD/ADHD. Depending upon documentation provided to the University, available services/accommodations include, but are not limited to: learning disability specialist, sign language interpreters, note takers, readers, tutors, alternative testing arrangements, recorders, visual magnifiers, and specialized computer hardware and software on campus. All services are free.

STUDENTS CODE OF CONDUCT

Students as citizens of local, state, and national governments, and members of an academic community, are expected to conduct themselves in a law-abiding manner at all times.

Admission to Centurion International University carries with it special privileges and imposes special responsibilities apart from those rights and duties enjoyed by non-students. Accordingly, the University has developed regulations and policies pertaining to students and to student organizations outlined in this Student Code of Conduct. These regulations are

necessary to provide an environment that is conducive to the intellectual and personal development of all members of the campus community. Students or organizations accused of violating the Code have certain substantive and procedural rights that are cited in this document. Any student or organization found to be in violation of an established policy or regulation of the University is subject to misconduct action according to the provisions outlined in the Code.

JURISDICTION AND COOPERATION WITH LAW ENFORCEMENT AGENCIES

Generally, the jurisdiction of the code is limited to student conduct occurring on property owned, leased, or otherwise controlled by the University.

In exceptional circumstances, jurisdiction may be asserted off-campus when conduct impairs, interferes with, or obstructs University activities or the mission and functions of the University, or poses a substantial threat to the health and safety of the campus community. As members of the larger community of which the University is a part, students are subject to all national, state and local laws and ordinances.

While the laws of the larger community and the Student Code of Conduct may overlap, they operate independently and do not substitute for each other. If a student's violation of such laws or ordinances also adversely affects the University's pursuit of its educational objectives, the University may enforce its own regulations, regardless of any legal proceedings either pending or underway by other authorities. Conversely, violation of any section of these regulations may subject a student to disciplinary measures by the University, whether or not such conduct is simultaneously a violation of local, state, or national laws. Further, the University makes no attempt to shield members of the campus community from the law, nor does it automatically intervene in legal proceedings against members of the campus community. The University will cooperate with law enforcement agencies, courts, and any other agencies in programs for rehabilitation of students.

GENERAL MISCONDUCT

Generally, through appropriate due process procedures, University disciplinary measures shall be imposed for conduct, excluding academic misconduct, which adversely affects the University's pursuit of its educational objectives, which violates or shows a disregard for the rights of other members of the academic community, or which endangers property or persons on University or University-controlled property. Individual or organizational

misconduct, which is subject to disciplinary sanction, includes:

- Forgery, falsification, or fraudulent misuse of University documents, records or identification cards.
- Furnishing false information to the University or members of the University community who are performing their official duties.
- Causing false information to be presented before any judicial proceeding of the University or intentionally destroying evidence important to such a proceeding.
- Theft of property or services on University premises or at University-sponsored activities, or knowingly possessing stolen property on University premises or at University-sponsored activities.
- Unauthorized use, destruction, or damage of University property or the property of others on University premises or at University-sponsored activities. Unauthorized means entry, use, or occupancy of property of which the student is not authorized by virtue of his or her enrollment, class schedule, and/or legal or Student Code of Conduct action.
- Unauthorized or fraudulent use of the University facilities, telephone system, mail system, or computers, or use of any of the above for any illegal act.
- Unauthorized entry, use or occupancy of University facilities.
- Failure to comply with the directions of University officials acting in the performance of their duties within the scope of their authority.
- Violation of published University regulations or policies.
- Intentional obstruction or disruption of normal University or University-sponsored activities, including but not limited to studying, teaching, research, administration and disciplinary procedures, or fire, police or emergency services.
- Use, possession, or distribution of alcoholic beverages on University premises or at University-sponsored activities except as permitted under University policies.
- Disorderly or indecent conduct on University-owned or controlled property or at University-sponsored events.
- Interfering with freedom of expression of others on University premises or at University-sponsored events.
- Malicious intimidation or harassment of another which occurs when a student, with intent to terrify, intimidate, threaten, harass, annoy, or offend, (1) causes bodily injury to another, (2) causes reasonable apprehension of bodily injury in another, (3) damages, destroys, or defaces any property of another or any public property, or (4) makes repeated communications anonymously or at extremely inconvenient hours or in offensively coarse language.
- Any form of illegal gambling or wagering.
- Misuse of electronic devices. Cellular phones, pagers, and other electronic devices shall not be used in a manner that causes disruption to instruction, the library, or other services and facilities owned or operated by the University. Use of cellular devices with

photographic capabilities for activities that violate the Academic or General Code of Student Conduct is prohibited. Photographing individuals in secured areas such as bathrooms or where there is a reasonable expectation of privacy, and/or taking photographs of individuals without express permission is prohibited.

- Misuse or abuse of computer equipment, programs, or data.
- Financial irresponsibility. Failure to meet financial responsibilities to the University promptly including, but not limited to, knowingly passing a worthless check or money order in payment to the University or to a member of the University community acting in an official capacity.
- Illegal use, possession, or distribution of any controlled substance on University premises or at University-sponsored activities.
- Illegal or unauthorized possession or use of firearms, explosives, other weapons, dangerous chemicals, or other noxious substances on University premises.
- Sexual intercourse without consent (rape) or sexual contact without consent (sexual assault).
- Homicide, assault, aggravated or felony assault, or threat of the same, to any person on University-owned or controlled property or at University-sponsored activities, or conduct, which threatens or endangers the health or safety of any such person.
- Retaliation against a person for filing a complaint or acts of intimidation directed towards a person to drop a complaint.
- Attempts and complicity. Any attempt to commit acts prohibited by the General Student Code of Conduct, or the aiding and abetting of the commission of any prohibited act.
- Violation of state or federal laws. Any violation of state or federal laws or regulations prescribing conduct or establishing offenses, which laws and regulations are incorporated herein by reference.
- Violation of the terms of any disciplinary sanction imposed in accordance with this Code.

REGISTERING COMPLAINTS AGAINST UNIVERSITY STAFF

GRIEVANCE PROCEDURES

If any student deems it necessary to file a grievance against a Centurion International University employee he or she must report such an incident to the Executive Director. Every effort will be made to protect the privacy of any parties involved. The student is entitled and encouraged to have an informal discussion with the Executive Director as a first step. If an informal conversation does not result in a satisfactory resolution, or if you are not comfortable speaking about the matter with the Executive Director, then the student should discuss the situation with the President. In cases of discrimination or sexual harassment, Centurion International University encourages the student to go directly to the President. Any complaint that is not in writing, that is, a verbal complaint, is considered an informal complaint.

After an informal discussion, if the student wishes to file a formal grievance, he/she may submit such in writing to the Executive Director. However, before filing a formal charge, the complaining party should first make a good faith effort to meet and confer with the party against whom he or she has a complaint in an effort to resolve the matter. The formal report should contain a statement of the problem or complaint, the facts and details of the situation, pertinent dates and the names and positions of the parties involved. The grievance must be signed and dated. Also, students may withdraw a complaint at any time during the complaint process. A withdrawal must be made in writing to the Executive Director. Upon receipt of a written formal complaint by a student, the Executive Director will consider the complaint. After such an investigation, the Executive Director will make a determination as to whether the grievance has merit as alleged.

If the alleged grievance is deemed justified, Centurion International University will take whatever steps it deems appropriate to correct any grievance suffered by the complaining student.

REMEDIES

If it is determined that such grievance has appropriate support, the persons or departments that are responsible for such violation will be dealt with in an appropriate manner by the supervisors or directors of such persons or programs, in accordance with applicable provisions, if any, of contracts, employment regulations, faculty and employee handbooks, or the like.

REVIEW BY A REPRESENTATIVE COMMITTEE

The student may appeal this determination to an appeals committee consisting of members of the administration, faculty and student body. This committee has the right to review the determinations and to reverse or amend such decisions.

ACADEMIC AND CLASSROOM MISCONDUCT

The instructor has the primary responsibility for control of classroom behavior and maintenance of academic integrity and can order the temporary removal or exclusion from the classroom of any student engaged in disruptive conduct or conduct in violation of the general rules and regulations of the University. Extended or permanent exclusion from the classroom or further disciplinary action can be effected only through appropriate procedures of the University.

1. Plagiarism, cheating, and other forms of academic dishonesty are prohibited. Students guilty of academic misconduct, either directly or indirectly, through participation or assistance, are immediately responsible to the instructor of the class. In addition to other possible disciplinary sanctions, which may be imposed through the regular University procedures, as a result of academic misconduct, the instructor has the authority to assign an F or a zero for the exercise or examination, or to assign an F in the course which signifies a failing grade.
2. Disruptive behavior in the classroom may be defined as, but is not limited to, behavior that obstructs or disrupts the learning environment (e.g., offensive language, harassment of students and professors, repeated outbursts from a student which disrupt the flow of instruction or prevent concentration on the subject taught, failure to cooperate in maintaining classroom decorum, etc.), the continued use of any electronic or other noise or light emitting device which disturbs others (e.g., disturbing noises from beepers, cell phones, palm pilots, lap-top computers, games, etc.).
3. Class attendance and punctuality requirements are contracted between the faculty and the students, through specific expectations for attendance and punctuality and specific consequences that are outlined by individual faculty members in the printed syllabus for each course. Students are expected to attend classes regularly and on time and are responsible for giving explanations/rationale for absences and lateness directly to the faculty member for each course in which they are enrolled.

In cases where student absences are the result of emergency circumstances (e.g.,

death in the family, a student's serious injury or incapacitating illness), for which students are unable to make immediate contact with faculty, the student may contact the Administrative Staff for assistance in providing such immediate notification to faculty. However, the student remains responsible for verifying the emergency circumstances to faculty and for discussing arrangements with faculty for completion of course work requirements.

4. If a student has reason to believe he or she has been wrongly accused of academic misconduct, and if a final grade has been lowered as a result, he or she may appeal the grade through the University.

DISCIPLINARY SANCTIONS

Upon a determination that a student or organization has violated the Student Code of General Conduct, the following disciplinary sanctions may be imposed, either singularly or in combination:

1. **Expulsion.** Expulsion entails a permanent separation from the University. The imposition of this sanction is a permanent bar to the student's re-admission to the University.
2. **Suspension.** If a student is suspended, he or she is separated from the University, and may also be excluded from participation in University-sponsored activities, for a specified period of time with conditions of re-admission stated in the notice of suspension.
3. **Disciplinary Probation.** Continued enrollment of a student on probation may be conditioned upon adherence to these regulations. Any student placed on probation will be notified of such in writing and will also be notified of the terms and length of probation. Probation may include restrictions upon the extracurricular activities of a student. Any conduct in violation of these regulations while on probationary status may result in the imposition of a more serious disciplinary sanction.
4. **Disciplinary Warning.** The appropriate University official may notify the student that continuation or repetition of specified conduct may be cause for other or more severe disciplinary actions.
5. **Restitution.** A student who has committed an offense against property may be required to reimburse the University or other owner for damage to or misappropriation of such property. Any such payment in restitution shall be limited to actual cost of repair or replacement.

6. Other Sanctions. In addition to or in lieu of the above, other sanctions may be imposed including restrictions upon a student's or organization's privileges for a specified period of time, counseling or rehabilitative treatment to address specific behaviors, fines, service to the University, and/or special educational programs relevant to the misconduct as a condition of continued or future enrollment.

Repeated or aggravated violation of this Code may result in more severe disciplinary sanctions than any individual action may warrant, and notification of any sanction imposed is provided to appropriate University officials. The Program Director is authorized, at his or her discretion, to subsequently convert any sanction imposed to a lesser sanction, or to rescind any previous sanction, in appropriate cases. Notification of any sanction imposed is sent to appropriate University officials.

Following suspension for general misconduct, readmission to the University is dependent upon the student's compliance with the conditions designated at the time of suspension and the student's fitness to return to the University community. Those decisions are made by the Program Director upon consultation with the appropriate Administrative Staff on campus and/or in the community. Appropriate documentation, depending upon the nature of the original violation and the conditions of suspension, may be required. Upon readmission the student is placed upon disciplinary probation for a designated period of time with required conditions and expectations of behavior to be monitored by a designated University official.

ANTI-HAZING POLICY

Centurion International University has an absolute prohibition on hazing. Hazing is defined as an action or situation created on or off campus which recklessly or intentionally harms, damages or endangers the mental or physical health or safety of a student for the purposes, including, but not limited to, initiation or admission into or affiliation with any organization operating within the University. Hazing includes, but is not limited to:

- Pressuring or coercing a student into violating rules or local, state or federal law.
- Any brutality of a physical nature, such as whipping, beating, branding, forced calisthenics, exposure to the elements, forced/encouraged consumption of any food, liquor, drug, or other substance, or other forced/encouraged physical activity that could adversely affect the physical or mental health or safety of the student.
- Any activity that would subject the student to extreme mental stress, such as sleep deprivation, forced/encouraged exclusion from social contact, forced/encouraged conduct that could result in extreme embarrassment, or forced/encouraged activity that could adversely affect the mental health or dignity of the student.
- Or any other activity, which is inconsistent with the regulations and policies.

- It is not a defense to a charge of hazing that:
- The consent of the victim had been obtained;
- The conduct of activity that resulted in the death or injury of a person was not part of an official organizational event or was not otherwise sanctioned or approved by the organization; or
- The conduct or activity that resulted in death or injury of the person was not done as a condition of membership to an organization.

TEMPORARY SUSPENSION

The University reserves the right to take necessary and appropriate action to protect the safety and well being of the University community.

1. A student may be temporarily suspended from the University by the Program Director pending disciplinary or criminal proceedings, upon evidence that the continued presence of the student on campus constitutes an immediate threat to the physical safety and well-being of the accused, or to any other member of the University community or its guests, destruction of property or substantial disruption of classroom or other University activities. When such a determination is made, the temporary suspension is effective immediately without prior notice. The student shall be given an opportunity to contest the suspension with the Program Director within five (5) instructional days from the effective date of the temporary suspension if there are disputed issues of fact or cause and effect.
2. Faculty members have the authority to exclude a student from any class session in which the student displays disruptive behavior that threatens the learning environment or safety and well being of others in the classroom. Students are eligible to return to the next class session. Faculty members maintain the authority to remove students from each class session during which a student is disruptive. A student may be suspended permanently from a class upon recommendation of the Administrative Staff or Program Director following the disciplinary procedure outlined in this Code.

DISCIPLINARY RECORDS

Sanctions of suspension and expulsion affect a student's academic status and are entered as notations in the student's permanent academic record maintained by the Administrative Staff during such time as the imposed sanctions are in effect. Records of sanction imposed for any violation of the General Student Code of Conduct are retained on file at the University.

DISCIPLINARY PROCEDURES

The purpose of a disciplinary proceeding is to determine if a violation of the General Student Code of Conduct has occurred, and if so, to determine appropriate sanctions. The principle of due process in student discipline is assured at Centurion International University.

Administrative proceedings are informal and do not follow formal rules of evidence applicable in judicial proceedings; however, the University has the burden of proof to establish a violation by clear and convincing evidence. The following procedures apply in adjudicating charges of general misconduct:

1. Whenever an allegation occurs that a student may have violated the General Student Code of Conduct, the Administrative Staff will conduct an investigation of the incident. The student will be advised in writing of the alleged violation(s), the investigation, and General Student Code of Conduct procedures. The investigation shall determine the facts of the incident through interviews, reports, and other forms of evidence. As part of the investigation, the student will be afforded the opportunity to respond to the allegation and evidence gathered. The Administrative Staff will review the evidence to determine if any violation of the Code of Conduct occurred and propose the appropriate disciplinary sanction(s). The student shall be notified in writing of the charges and sanctions and be provided the opportunity to respond through a meeting with the Administrative Staff within five (5) instructional days. If the student accepts the charges by signing the notice of charges and sanctions, a copy will be provided to the student, the proceedings are concluded and the sanctions are implemented.

If the student does not accept the charges and/or the sanctions, the student will be informed of the right to an administrative conference. If a student fails to respond to a notice of charges and sanctions within five (5) instructional days, the University will accept the charge(s) and impose the specified disciplinary sanction(s).

2. If a student denies charges and/or does not accept sanctions imposed as a result of the investigation conducted by the Administrative Staff, the investigation, charges, and sanctions are reported in writing to the Administrative Staff within five (5) days of meeting with the student.
3. The Program Director shall designate a committee to review the report to include an impartial student and faculty member. If the administrative committee determines that no violation has occurred or that the evidence is insufficient to support further action, a recommendation is sent to the Program Director with a copy to the student.

If the committee concludes that a probable violation has occurred and that evidence supports the sanctions, the Administrative Staff will convene a conference to include the student, the Program Director, and the review committee to inform the student of the committee's findings and provide the student with a final opportunity to respond. Written notice of the meeting will be provided informing the student of the right to be accompanied by a witness or legal counsel. The role of legal counsel at the conference is limited to consultation with the student only, and the student must notify the Administrative Staff of the intent to bring legal counsel at least three (3) instructional days before the time of the conference. If the student accepts the charges by signing the notice of the conference to review charges and sanctions, a copy will be provided to the student and the Program Director, the proceedings are concluded and the sanctions are implemented. If the student does not accept the charges and/or the sanctions, the student will be informed of the right to appeal the decision with the Program Director. If a student fails to appear at the conference, the University will accept the charge(s) and impose the specified disciplinary sanction(s).

4. In the event a student denies the charges and/or does not accept the disciplinary sanctions as determined through the administrative conference, the investigation, charges and sanctions are reported in writing to the Program Director within five (5) instructional days of the conference. The Program Director will review the report within ten (10) instructional days and make a final determination as to the charges and sanctions.
5. The Program Director may call a meeting with the student and may amend, modify, reverse, or accept the charges and/or sanctions. Notice of the final determination will be provided by the Program Director to the student with copies to the appropriate Administrative Staff members.

GRADUATION HOLD

A student may not receive a University degree or certificate while a charge or appeal of a violation of the Student Code of Conduct or other University rule, regulation, or policy is pending, and the University may further restrict or withhold the issuance of transcripts or diplomas or the transfer of academic credits during such times as well.

Notice of such actions, which the University may make in its sole discretion, shall be provided in writing to the student. The restriction on graduation for a pending charge or appeal of violation is limited to cases that are sufficiently serious that disciplinary action, if taken, could result in a sanction of suspension or exclusion.

RETALIATION

University policy strongly prohibits the taking of any retaliatory action for the good faith reporting of alleged improper or wrongful activity, assisting another in making such a report, or participating in an investigation or resolution of such matters. Thus, it is prohibited to engage, directly or indirectly, in any action or attempt to harass, intimidate, retaliate against, or improperly influence any individual associated with the student conduct process.

COMPLAINT PROCEDURES

If any student deems it necessary to file a grievance against a University employee he or she must report such incident to the Director. Every effort will be made to protect the privacy of any parties involved. The student is entitled and encouraged to have an informal discussion with the director as a first step. If an informal conversation does not result in a satisfactory resolution, or if you are not comfortable speaking about the matter with the director, then the student should discuss the situation with the President. In cases of discrimination or sexual harassment, the University encourages the student to go directly to the President. Any complaint that is not in writing, that is, a verbal complaint, is considered an informal complaint.

After an informal discussion, if the student wishes to file a formal grievance, he/she may submit such in writing to the director. However, before filing a formal charge, the complaining party should first make a good faith effort to meet and confer with the party against whom he or she has a complaint in an effort to resolve the matter. The formal report should contain a statement of the problem or complaint, the facts and details of the situation, pertinent dates and the names and positions of the parties involved. The grievance must be signed and dated. Also, students may withdraw a complaint at any time during the complaint process. A withdrawal must be made in writing to the director.

Upon receipt of a written formal complaint by a student, the director will consider the complaint. After such an investigation, the director will make a determination as to whether the grievance has merit as alleged. If the alleged grievance is deemed justified, the University will take whatever steps it deems appropriate to correct any grievance suffered by the complaining student. For unresolved matters, you may contact the Commission for Independent Education, Florida Department of Education, 325 West Gaines Street, Suite 1414, Tallahassee, FL 32399-0400 Toll Free Telephone Number 888-224-6684.

ACADEMIC INTEGRITY POLICY

Centurion International University expects its students to adhere to standards of academic integrity. It is a violation of academic integrity to present the ideas, designs, or works of another person as one's own efforts or to permit another person to do so. The following guidelines are intended to clarify these issues for students, faculty, and administration.

The University will regard the following acts as violations of academic integrity constituting academic dishonesty:

- Plagiarism - A student will be considered in violation of academic integrity if he or she submits an assignment, whether written, oral, graphic, or computer-generated, which consists wholly or partially of the words, work, or ideas of another individual without giving the original author proper credit.
- Copying - A student will be considered in violation of academic integrity if he or she uses crib notes, cheat sheets, books, or any other material or electronic device as aids in an examination or any other graded exercise, unless the instructor of the class has given permission to use such materials. Collaboration with another student on an examination or other graded exercise, unless the instructor has given permission, also constitutes copying.
- Contributing to Academic Dishonesty - A student will be considered in violation of academic integrity if he or she willfully assists another student in an act of academic dishonesty.

Academic dishonesty will not be tolerated. Academic sanctions for a first violation are at the discretion of the instructor and range from a failing grade for the particular instance to a failing grade in the course in which academic dishonesty occurs. When a faculty member assigns a failing course grade on the basis of academic dishonesty, he or she shall assign a grade of F. Faculty must report all violations of academic integrity to the student involved, the appropriate Administrative Staff members, and to the Program Director; in cases of serial offenses, the Program Director will recommend disciplinary sanctions that may result in expulsion from the University. Students retain their right to due process regarding any academic or disciplinary sanctions.

RIGOROUS TEACHING

Rigorous teaching permits faculty members to create learning environments that encourage students to grow in confidence, competence, and control. Rigorous teaching requires a professional commitment to academic discipline and to inspiring students to develop their knowledge and understanding by developing their learning skills. Students should be able to expect faculty members to:

1. Strive to clearly communicate the course expectations and have them summarized on the syllabus, and to follow the curriculum;
2. Strive to come to class prepared, and to give students useful feedback on their assignments in as timely manner as the situation permits;
3. Strive to be available to students outside of the classroom;
4. Strive to make assignments relevant, meaningful and challenging;
5. Strive to create opportunities for learning in ways geared to students' diverse talents and abilities;
6. Strive to reduce, if not eliminate, the students' perceived need to plagiarize and to challenge plagiarism should it occur; and
7. Strive to evaluate our courses and us.

RIGOROUS LEARNING

To make the most of the University experience, students should approach University in terms of a rigor complementary to the faculty. Rigorous learning requires fortitude, persistence, preparation, hard work, and zeal.

Since the University shifts students from the teacher-centered style of high school learning to a student-centered style of learning, it places a level of responsibility for performance onto the students. Such performance at a demanding University can lead to a successful and satisfying career. Therefore, rigorous students should expect themselves to:

1. Set expectations along with a strong sense of collegiate purpose;
2. Come to class prepared to work, and to submit assignments by the deadlines;
3. Make the most of their time with faculty members in and out of class;
4. Treat fellow students and the classroom with respect, and to participate in the academic process;
5. Manage their time so they can treat the University as real work with real value;
6. Participate with complete honesty and integrity;
7. Understand that collaboration with classmates on assignments, when required or encouraged, is acceptable behavior as long as the products of those assignments are truly the student's own work;
8. Accept responsibility for learning and for the grades earned.

EMERGENCY PREPAREDNESS AT CENTURION INTERNATIONAL UNIVERSITY

FIRE OR SMOKE

1. If you discover a fire or smoke, leave the area and pull the fire alarm. From a safe location, call building security and report the fire.
2. If you are able to safely extinguish the fire, do so only if you have been properly trained. Make sure that you have a safe exit from the fire area.
3. Evacuate the building as soon as the alarm sounds and proceed to the designated area of assembly. Take personal belongings with you.
4. On your way out, warn others nearby.
5. Move away from fire and smoke. Close doors and windows if time permits.
6. Touch closed doors. Do not open them if they are hot.
7. Use stairs only; do not use elevators.
8. Move at least 300 feet from the building and go to the designated area of assembly.
9. Do not re-enter the building or work area until you have been instructed to do so by the emergency responders, building security.

If there is a fire in your building: Evacuate immediately following the fire exit signs in your area.

BOMB THREAT

What should you do if you receive a bomb threat by phone?

1. If you receive a bomb threat by telephone – If a telephone number is displayed on your phone, record that number.
2. Immediately call building security using a landline telephone, not a cellular or radio device. Provide information to security and proceed as directed.
3. Do not activate the fire alarm. Turn off cell phones, walkie-talkies, or other radio devices; do not use this type of equipment until you are at least 300 feet from the potential bombsite.
4. This information concerning the call will be helpful to law enforcement officials:
 - a. Time of call and number from which call is made
 - b. Location of the bomb or time of possible detonation
 - c. Background noises that give clues to the location of the caller
 - d. Apparent gender and age range of the caller, voice quality (calm, excited, slurred), accents, speech impediments, or other clues to the possible identity of the caller.

Here are suggested tips for anyone who receives a bomb threat by phone:

1. Keep the caller on the line as long as possible. Ask him/her to repeat the message. Record every word spoken by the person.
2. If the caller does not indicate the location of the bomb or the time of possible detonation, ask him/her for this information.
3. Inform the caller that the building is occupied and the detonation of a bomb could result in death or serious injury to many innocent people.
4. Pay particular attention to background noises, such as motors running, music playing and any other noise, which may give a clue as to the location of the caller.
5. Listen closely to the voice (male, female), voice quality (calm, excited), accents, and speech impediments. Immediately after the caller hangs up, report the threat to 911.
6. Remain available, as law enforcement personnel will want to interview you.

What should you do if you receive a bomb threat by other means?

If you receive a bomb threat by any other means, immediately call 911 using a landline telephone, not a cellular or radio device. Provide information to 911 and proceed as directed. Do not activate the fire alarm. Turn off cell phones, walkie-talkies, or other radio devices; do not use this type of equipment until you are at least 300 feet from the potential bombsite.

CRIMINAL BEHAVIOR/SUSPICIOUS PERSON

1. Do not attempt to detain the person.
2. Call 911.
3. Provide as much information as possible including their location.

EMERGENCY GUIDE FOR RESPONDING TO VIOLENT INCIDENTS

Centurion International University seeks to promote a teaching and learning environment that is safe for all students, faculty, staff and visitors. The following information is intended to serve as a guide and is based on best practices from law enforcement experts. There is no one best response for every possible situation that could arise. Individuals faced with deciding what to do in the face of a violent attack should take the following responses into consideration and then use the information available to make a personal decision concerning which response to choose. Being prepared for emergency situations and understanding your personal skills and limitations will help you to respond in the best possible manner.

If you see or know that a person has a firearm on campus; or if you hear shots fired on campus; or if you witness an armed person shooting people (active shooter), the following actions are recommended:

1. Exit the area immediately if it is safe to do so.
2. Notify anyone you may encounter to exit immediately.
3. Evacuate to a safe indoor location away from danger. If possible, go to another building. It may be necessary to leave the University.
4. Contact 911 and provide the following information:
 - a. Your name
 - b. Location of the incident (be as specific as possible)
 - c. Number of shooters (if known)
 - d. Identification or description of shooter
 - e. Number of persons involved
 - f. Location

CREDENTIALS AWARDED

Great care has been taken by Centurion International University and its faculty to develop educational programs and curricula that are consistent with appropriate criteria and standards in the subject area involved. The educational programs and curricula are of an appropriate level of difficulty for the degree offered.

The programs and curricula of Centurion International University have been developed to meet the needs of the students. Centurion International University has been designed to attract high caliber students who are academically able and who are motivated to become contributing members of society. Centurion International University will remain sensitive to the needs of the business and professional community, and strive to produce graduates with the skills and abilities required in today's workforce.

Each program of study will provide a sequence of appropriate courses that lead to the attainment of the degree. A detailed description of the curriculum for each of these programs is contained herein.

DISTANCE LEARNING METHODS OF DELIVERY

STUDENTS

At the beginning of the semester, all distance learning course participants will participate in an online introductory lecture on how our distance-learning platform works to help learners solve any queries they may have about strategies or approaches teachers will use. This introductory lecture is mandatory and Students are able to choose from 6 sessions held at different times.

TUTORIALS

Video tutorials and student guides will be uploaded for everyone.

ORIENTATION PROGRAM

The Coursesites by Blackboard platform has been implemented in our University and it provides our learners with a tutorial that guides them on the different ways they can interact online.

Uses will be shown a wide variety of activities they could complete once the course starts.

ONLINE CLASS MATERIAL

Online class material is prepared before the semester begins teacher's work collaboratively with instructional designers. Students are informed about the different aspects of the distance-learning course (requirements hardware and technical skills) by means of a "guidebook" sent out at the beginning of the course.

Students must have technical skills to know how to use web browsers and Windows XP.

Students undergo an online trial test to make sure they meet the University technological standards.

HARDWARE/SOFTWARE REQUIREMENTS FOR STUDENTS:

The material needed for students (syllabus, PPT'S, PDF'S, links, tailor-made activities, etc.) are posted on the platform once the course begins.

The Virtual Classroom facilities are included in the Tuition.

The distance learning platform requires specific features in order to "carry out" different tasks. Thus, students and teachers should have a PC that meets the following standards.

Hardware	Software
Pentium D or higher. 1 GB Memory RAM or higher. [1024x728] Video resolution Fixed or wireless Internet Access (1Mb). Microphone and Audio Headphones.	Web Browser Mozilla Firefox v.22 or more recent. Operating Systems: Windows XP or more recent Mac OSX 10.5 "Leopard®" Acrobat Reader (Free software). Macromedia Flash Player. Microsoft Office or Open Office.

TECHNICAL SUPPORT:

Technical support on the use of the platform at students' and teachers' request is available throughout the course and provides information about course activities and how to use the platform tools. We seek to acknowledge our students' inquiries as soon as possible, being 4 hours the maximum time our technical support contacts our students.

In addition, our platform enables users to address any technical concerns they may have related to the Virtual Classroom. Our platform also provides "online support" to make changes or adjustments.

In the event that users were unable to access our platform or cannot complete an activity; they can request technical support by:

Contacting Support via E-mail from Monday to Sunday 24/7

A Technical Support Hotline is available on the University's webpage, along with a most frequently asked questions page that include the following:

- How do I get help if I have a problem?
- How do I access the Virtual Classroom?
- How do I register for an online program?
- Who are my instructors?
- How do I view lectures?
- How do I get my textbooks?

ACADEMIC SUPPORT:

By accessing our Virtual Classroom, students are in constant contact with teachers and this communication is provided by means of 3 tools:

- Forums: All online courses have an enquiry forum to address students' questions about different academic topics.
- Web Conference Coursesite by Blackboard: by using this tool our teachers can provide synchronous tutoring to our learners about any course queries.
- Coursesite by Blackboard Instant Messaging: chatting with teachers and peers provides synchronous interaction. In addition, here students can ask individual questions to teachers and/or tutors regarding some academic or non-academic issues that could be affecting their performance.

STUDENT ASSESSMENT:

The courses syllabi are designed as follows:

1. Every course has a specific assessment system and a time frame that is given once they are registered. This timeframe includes the dates and hours the tasks are due and

the weight each task has in the final score. Proctored evaluations are also included and specified in the student's calendar of activities.

2. Interactive activities and autonomous learning projects or assignments designed by the teacher are evaluated and approved by the program coordinators before they are included in the syllabus.

To evaluate the students' success in achieving the online learning goals, they are asked to:

- Pass multiple exams
- Submit term papers or assignments online
- Conduct research and work collaboratively
- Participate in forums / Virtual Classroom (real time) / chat programmed by teacher in advanced

Teachers are responsible for controlling and updating student progress on a regular basis. Distance Learning Platform reporting tools are used to verify students' performance along the course.

Student progress is evaluated by using our virtual classroom tools provided by our Coursesites by Blackboard platform.

Warning System: it enables the teachers to create rules / policies or warnings about evaluations due dates and to be informed the latest students log in.

Performance chart: it allows teachers to have student's roll, grades, previous warnings and teachers' general idea of students' performance throughout the course.

The students will have access to Library Information Resource Network (LIRN), which provides access to books, journals, periodicals, and other online resources.
